

coin\_common.h

```
graph LR; coin_common_h[coin_common.h] --> R_h[R.h]; coin_common_h --> Rmath_h[Rmath.h]; coin_common_h --> Rinternals_h[Rinternals.h]; coin_common_h --> Rdefines_h[Rdefines.h]; coin_common_h --> R_ext_Applic_h[R_ext/Applic.h]; coin_common_h --> Classes_h[Classes.h]; coin_common_h --> LinearStatistic_h[LinearStatistic.h]; coin_common_h --> Helpers_h[Helpers.h];
```

The diagram illustrates the relationships between the `coin_common.h` header file and several other header files. `coin_common.h` is positioned on the left in a black box, while the other headers are on the right in white boxes. Eight curved blue arrows originate from the right side of `coin_common.h` and point to each of the following files: `R.h`, `Rmath.h`, `Rinternals.h`, `Rdefines.h`, `R_ext/Applic.h`, `Classes.h`, `LinearStatistic.h`, and `Helpers.h`.

R.h

Rmath.h

Rinternals.h

Rdefines.h

R\_ext/Applic.h

Classes.h

LinearStatistic.h

Helpers.h
